

# THE MOST POWERFUL DUO IN RECENT MEMORY

## RAMBUS AND THE PENTIUM 4

---

IT'S LIKE THEY WERE MADE FOR EACH OTHER

Rambus Memory and the Pentium® 4 are made for each other – and for whatever killer app you throw their way. Only Rambus has the speed and bandwidth to optimize Pentium 4 performance, and it provides plenty of headroom for tomorrow's apps and the next generation processors. Best of all, Rambus is now in volume production so it's priced more competitively than you think. No wonder so many computer manufacturers are putting this dynamic duo to work in today's high-performance desktop systems. To learn more, visit [www.4rambus.com](http://www.4rambus.com) or call (877) 4RAMBUS. And get ready for a pretty powerful argument.

# HERE TODAY. EVERYWHERE TOMORROW.

## RAMBUS AND THE PENTIUM 4

---

IT'S LIKE THEY WERE MADE FOR EACH OTHER

Ask the leading technology manufacturers and they agree. Rambus Memory and the Pentium® 4 processor make an ideal platform for today's high performance PCs. Only Rambus has the speed and bandwidth to optimize Pentium 4 performance. Not to mention, it provides more than enough headroom for future apps and next generation processors. And Rambus is not only reliable and proven technology, it's now in volume production so it's priced more competitively than you think. To learn more, visit [www.4rambus.com](http://www.4rambus.com) or call (877) 4RAMBUS today. That way, you'll be ready for tomorrow.
