GOLF

CONSUMER TARGETS

Game Improvement Players

The higher lofted and more flexible drivers are designed for those players with medium to slow swing speeds who are seeking added distance and accuracy. These drivers are lighter in overall weight and have increased offset.

More Accomplished Players

The stronger lofts and flexes are designed specifically for more accomplished players. These drivers incorporate slightly heavier overall weights and reduced offset.

CLEVELAND VAS TITANIUM WOODS

FEATURES / BENEFITS

Feature

- longer club (45")
- reduced overall weight (310 gms)

Benefit

- Increases clubhead speed

Feature

- super oversized head (260cc) for a higher moment of inertia
