

THE DREAM TEAM

It Began With a Dream.

A few years ago it was but a Dream. To create a World Class Medical School, a World Class Research Center, and provide one of the county's finest medical staffs to outstanding hospitals in Milwaukee

Today, the Dream Lives.

Today, our Cancer Research Center continues to gain prominence throughout the world. Working to exchange breakthroughs with other top Medical Research Centers in Germany, France, Switzerland and scores of others across the Globe.

A Medical College of the World.

We have created one of the finest Medical Colleges in The United States, drawing top students from over 30 nations. And a Medical Staff of nationally recognized Physicians, we provide to Froedtert Hospital that is second to none in Wisconsin.

The Best Farm System in Wisconsin.

In fact, one third of all Doctors here have been graduated from The Medical College. Or interned here. Or had their Residency with us. So in Milwaukee, when it comes to finding the best in medical care, we can now grow our own.

Blazing New Trails.

As the Pioneers who invented DNA Mapping for the diagnosis of disease, the World of Truly Personalized Medical Treatment has been started here. The ability to find in each person's unique DNA the proclivity and risks to Cancers, Diabetes, Diseases of the Heart, as well as diagnosing current life threatening conditions.

A World Class Cancer Research Center.

And today our Regional Cancer Research Center of Wisconsin under the direction of Dr You is blazing new trails in the prevention and treatment of cancer that is allowing cancer sufferers throughout the world, as well as right here in Wisconsin, to return to normal life.

And all it took was a Dream. And, thousands of very talented people.

PERFORMING THE MIRACLES OF MODERN MEDICINE, EVERY DAY.
